Subject: RE: Parcel F - Field Change Request - WP Clarifications

Hey Lisa,

The form attached doesn't have an answer for the section "Will this change result in a contract cost or time change? Yes / No"

Can you please update that section (I'm assuming it's no) and return the form. Leslie will likely be signing as the Navy RPM (if needed).

Thanks,

SR

Subject: [Non-DoD Source] Parcel F - Field Change Request - WP Clarifications

Good morning Sean-Ryan and Matt,

Field change request (FCR) 003 is attached for your review/signature. The FCR clarifies two things:

1. Specifies equivalent procedures reviewed and approved by APTIM can be used in addition to APTIM's operational procedures
2. Corrects a bullet in Section 5.4.5 to be consistent with Section 5.3.3, which states the IL for gamma scan measurements is the mean of the survey data + 3 standard deviations

We're up to FCR-003 because FCR-001 and FCR-002 were issued for Parcel D-1 work (which was performed under the same contract).

Please let me know if you have any questions.

Thank you,

Lisa
